

No-Show/Cancellation Policy

You can help keep the cost of health care down by coming to your appointments. No-show appointments are costly!

Appointments are made to reserve your therapist's time for you. The therapist must be paid for their time. No-show appointments are costly because they do not allow us to schedule anyone else in that time slot and therefore the therapist's time was wasted. Insurance does not pay for no-show appointments; therefore, we reserve the right to bill patients a \$50.00 per no-show fee. No-show fees are to be paid in full and partial payments will not be accepted. Cancellations of appointments are to be made 24 hours prior to your appointment. We realize that emergencies do happen. We reserve the right to bill for habitual (usually more than 3) cancellations made less than 24 hours prior to your appointment. The charge for habitual cancellations is \$35.00 per cancellation.

We thank you for your support and your business!

We must all do our part to keep health care costs down. We appreciate

Please let us know if you have any questions.
